

Omni-Flex™

General Surgery Retractor System

Your Patient.
Your Approach.

Flexibility

Interchangeable, Removable Arms

Stable retraction that lets you perform procedures the way you prefer. Strong enough for your largest patients. Nimble enough for small-site work. Always easy to use.

Use one arm. Use two arms. Take one arm away or use one of each. Choose the frame arm—before or during surgery—that helps maximize your surgical field.

Ease-of-Use

Maximize Exposure—Minimize Obstructions

Exchange an arm. Remove an arm. Open the field. The Omni-Flex System easily exposes difficult anatomy no matter what your procedure demands.

Strength

Strength for Stability with Every Patient

Any patient size. Any incision size. Always stable. The Omni-Flex System is designed to remain stable, so you always get the exposure you need.

Retract from every direction by simply adding our hinged extension arm.

Any approach. Any plane. Any position. Always low-profile. The O

SideSnap™ Clamps for Faster Setup & Mid-Surgery Changes

Snap the clamp on the frame. Snap the blade in place. Our SideSnap™ Clamps allow for quicker, simpler setup. With added strength, they enhance the flexibility of the Omni-Flex System.

of-use
strength

Quick Blade Attachment

Attach in one sweeping motion with a simple snap from the side.

Stack Blades to Maximize Incision

Stack a longer blade over a shorter blade for increased tissue holding power and increased visibility.

Any Approach

Omni-Flex Retractor System gives you complete surgical freedom.
